Date: October 11, 2007

GREATER CINCINNATI WATER WORKS ANNOUNCES REPLACEMENT OF WATER MAIN ON SUMMIT ROAD.

To provide better service to our customers, Greater Cincinnati Water Works has contracted with Trend Construction to install a replacement 16-inch water main on Summit Road from Section Road to Reading Road.

Construction is tentatively scheduled to begin Monday October 15, 2007, and is expected to take 120 days. All traffic restrictions will be monitored and adjusted as necessary.

The following traffic restrictions will be in place during the construction period.

- On Summit Road, no work will be permitted between 7:00 a.m. and 9:00 a.m.
- During all working hours traffic will be maintained by the use of flagging personnel. During all non-working hours the entire roadway must be open and available for the movement of traffic.
- An off-duty police officer with police cruiser will be present for the work within all signalized intersections.
- At the intersection of Summit Road and Reading Road., no work will be permitted between 6:00 a.m. to 9:00 a.m. and 3:00 p.m. to 6:00 p.m.

At times, unforeseen situations beyond the control of the Contractor or Greater Cincinnati Water Works may cause delays in traffic movement.

We hope our customers will pardon any inconvenience that may result from this water main improvement. Disruption to present water service will be kept to an absolute minimum.

A Greater Cincinnati Water Works inspector will be present during construction operations. Please feel free to address any concerns regarding the construction operations with our representative. Pat Arnette, Senior Engineer, at 513-591-6585, is also available to answer questions about this project.
